

Dear Parents and Carers,

### Express Yourself!!!

This week we have been taking part in Children's Mental Health Week, supported by Place2Be. Our Wellbeing Champions delivered an assembly to the other classes all around this year's theme- 'My Voice Matters'. This is about empowering children and young people by providing them with the tools they need to express themselves. To support this, children have been completing different activities in class across the week- from mindful colouring to work around getting their voices heard.

The week ended with our 'Express Yourself' day on Friday where children came into school expressing themselves through their clothing, donating £1 to raise money for another Buddy Bench for the KS1 playground.

### Bedtime Stories

The KS1 children and parents had a lovely evening on Tuesday when they came back to our Bedtime stories event. They came back in their PJs and shared some lovely bedtime stories with staff.

### Parent Volunteers

An absolutely huge thank you to the parents who came in this week to talk to Reception about their transport jobs. The children loved hearing from Arlo and Madison's grownups all about their jobs as tram and bus drivers.

### Young Voices

On Wednesday evening, Mrs Stansfield took our choir over to the Manchester AO Arena to take part in Young Voices. It was a fantastic experience for them to get involved in a collaborative concert. The children learned a number of pop songs before they went and performed them along with thousands of other children.

### Attendance

This week our attendance is slightly higher than last week with 92.9% attendance across school. The winning class this week were Miss Donovan's class with a great 96.5%. Well done to Miss Evan's class who had the most improved attendance this week.
